BLOOMFIELD DRIVE

ROLLINGWOOD CIRCLE

SHERWOOD FOREST and ORCHARD PARK

Many such big development ideas never get beyond the drawing board stage, and, if they do, unfortunately too many times they never reach real maturity because of shortsighted planning and lack of actual know-how.

Orchard Park (London) Limited, however, with infinite patience, and step by step planning, have created in Sherwood Forest and Orchard Park a home community of such beauty and value that it is regarded by banks, insurance companies, real estate experts, builders and other observers as the outstanding development of its kind in London.

MEDWAY RIVER AND MEDWAY VALLEY

Welcome to SHERWOOD FOREST and ORCHARD PARK Showplace of London

Welcome to Sherwood Forest and Orchard Park, one of the most beautiful residential areas in Southwestern Ontario, located in rolling, wooded countryside 2½ miles north-west of downtown London.

Here, in park-like surroundings only a 10-minute drive from the heart of London and a few minutes walk from the beautiful University of Western Ontario campus, is a show-place community of attractive homes and home sites.

Sherwood Forest, like its earlier neighbour, Orchard Park, opens up new perspectives of gracious suburban living for today's home owners.

Gently curving roads, wide and spacious lots and an abundance of native trees offer a magnificent setting for homes of every style — from the popular multi-level and ranch designs to traditional Colonial and Cape Cod.

Like the homes shown here each lot in Sherwood Forest and Orchard Park has its own individual characteristics which often suggest unique and distinctive home plans. This has resulted in a pleasing harmony between homes and their natural background. More than two years of careful planning has made possible a development which provides all essential community services at the same time preserving the natural beauty of the area, leaving the original contours of the land undisturbed.

ROLLINGWOOD CIRCLE

ROLLINGWOOD CIRCLE

SHERWOOD FOREST and ORCHARD PARK

The purchase you are contemplating . . . a home . . . may well be one of the most important you will ever make. What do you want in a home? Charm? Of course, livability? Certainly, ease and comfort? By all means, good neighbors? Yes, indeed!

But remember . . . this home of your dreams is also an investment, a hard-headed business investment, and the soundness of this investment is largely determined by the land on which it is built . . . the location, the surroundings, the improvements and by the protective building restrictions.

Drive out and see Sherwood Forest . . . beautiful trees carefully left standing on nearly every lot — plus curving streets and lovely landscaped lots on beautiful, high rolling land with lots of shade trees.
